Dear Brian,

Let me tell you what a success the 2016 Back to School Technical Roundtable was yesterday! And, it was in large part due to the hard work of Autumn Roper.

Almost 40 INFOhio staff and ITC providers spent the day getting updates and providing feedback on the latest developments in INFOhio software and instructional resources, developments that will make them even more useful for schools.

Autumn did a wonderful job presenting a clever way to manage library attendance using Google Forms and Sheets that Laura Henning at the Trumbull Career and Technical Center developed. I wish you could have heard the response. There were literal "oohs" and "aahs," and within seconds the other providers furiously started typing emails to share the idea with their users.

Thank you for allowing her to attend. It was time well spent. Autumn's work is improving school library service not only in NEOMIN's service area, but across Ohio!

Regards,

Theresa M. Fredericka
